

THE AETHRYX EXPANSE

Canonical Layout · Three Orbital Metrics · v9.7

Source: The AOV™ Saga Master Codex v9.6 · sheets 5 COSMIC CATALOG (Planetary Order — 27+1) and 4 COSMIC THEORY (Aenor Eruption · Aenor centre lock). Hand-drawn orbital reference from The Creator (v9.7 quadrant lock).

Three Orthogonal Orbital Metrics

Every world in the Expanse is located by a deterministic triple — its formation era, orbital spire, and quadrant zone. Each is independent.

METRIC	FORMULA / RANGE	CANONICAL VALUES
Formation Era	Chronological era of creation (codex sheet 5)	Genesis (1—9) · Omen (10—18) · Definitive (19—27) · Drift (28)
Orbital Spire	$\text{ring} = \lceil n / 4 \rceil$	1 (innermost) — 7 (outermost) · 4 planets per spire (one per axis)
Quadrant Zone	$q = (n - 1) \bmod 4$	0 Alpha · 1 Omega · 2 Trinity · 3 Dichotomy

Central Star — AENOR

AENOR — the brightest Eye of God over the Aethryx Expanse. The Father Gem's radiant face (v5.7 lock). Every world orbits Aenor; every cosmic energy line traces back to Aenor's plasma.

Render notes: bright gold-white core, fiery corona, soft lens-flare cross. Eye-icon inside the sun is canon — include it. Label AENOR · "THE HIGHEST EYE" in serif gold caps.

The Four Quadrants

Four stagnant top-down sectors that the planets orbit through. Each planet has a primary quadrant — the sector its current canonical position falls in and the register its lore most belongs to.

Q	NAME	CARTESIAN	POSITION	SPIRE AXIS	COSMOLOGICAL REGISTER
I	ALPHA ZONE	(+, +)	NE	North spire	Beginning · awakening · first light · primordial source
II	DICHOTOMY ZONE	(-, +)	NW	West spire	Pairs · duality · conflict · opposing forces
III	TRINITY ZONE	(-, -)	SW	South spire	Devotion · synthesis · the three-fold · integration
IV	OMEGA ZONE	(+, -)	SE	East spire	Ending · closure · finality · the last word

The four cardinal spires (N · E · S · W) are the visible axis lines from Aenor outward to ring 7. Each spire intersects all 7 rings, giving $4 \times 7 = 28$ fixed orbital coordinates — one per planet.

The Seven Orbital Spires (rings)

RING	PLANET NUMBERS	SPANS FORMATION ERA(S)
1 (innermost)	1 · 2 · 3 · 4	Genesis
2	5 · 6 · 7 · 8	Genesis
3	9 · 10 · 11 · 12	Genesis (9) + Omen (10—12)
4	13 · 14 · 15 · 16	Omen
5	17 · 18 · 19 · 20	Omen (17—18) + Definitive (19—20)
6	21 · 22 · 23 · 24	Definitive
7 (outermost)	25 · 26 · 27 · 28	Definitive + Drift

Quadrant Assignments — The Canonical 28

Q I · ALPHA ZONE						(+, +) · North spire · 7 planets					
RING	#	PLANET	AGE	DEFINING ATTRIBUTE		RENDER HINT					
1	1	Origon ★	12 Bya	Direct Highest One presence; no inhabitants		Dim charcoal-black sphere with a single white pinprick at its centre					
2	5	Thallasar	9.6 Bya	Oceanic harmony (The Great Fin)		Solid abyssal blue, no landmass, one silvery wave-arc					
3	9	Zyraxis ★	9 Bya	Gemlords; gems first crystallise		Faceted violet/amethyst body with TWO planetary rings (the saga's double-ring signature)					
4	13	Kyrathos	7.4 Bya	Hidden world of awareness		Near-black with a single dim violet limb-glow					
5	17	Velkryn	6.2 Bya	Crimsonian Titans · pure consumption		Dark crimson with mouth-like negative-space rings					
6	21	Wyvera	5.5 Bya	Sky-dominant winged predators		Sky-blue with white wind-streaks					
7	25	Gravaron	5.15 Bya	Extreme gravity		Dense dark-purple sphere with gravitational lensing halo					

Q II · DICHOTOMY ZONE						(−, +) · West spire · 6 planets + 1 drift					
RING	#	PLANET	AGE	DEFINING ATTRIBUTE		RENDER HINT					
1	4	Arborynth	9.8 Bya	Single living planetary organism (The Great Root)		Deep forest-green; visible root-vein network					
2	8	Cytherion	9.2 Bya	First artificial structure — the Grid		Black with a glowing cyan tessellation grid					
3	12	Yvoris	7.7 Bya	Frozen stasis; hardened forms		Pale ice-blue, glassy frozen surface					
4	16	Sylvanir	6.4 Bya	Sentient forest consciousness		Deep emerald with face-like canopy patterns					
5	20	Halcyra	5.6 Bya	Oceanic harmony with devotion		Turquoise oceanic, calm cloud bands					
6	24	Xylos	5.2 Bya	Crystalline; frequency-locked		Ice-white prismatic, polyhedral edges					
7	28	Ovauron / AE-28 (drift)	4.85 Bya	THE DRIFT PLANET. Wandering "Fourth Question" world — Transition · Renewal · Forgotten		Ghost-violet sphere — occupies Q II spire 7 on the static map but DRIFTS elliptically across all quadrants and rings. Faint comet-trail.					

Q III · TRINITY ZONE			(–, –) · South spire · 7 planets		
RING	#	PLANET	AGE	DEFINING ATTRIBUTE	RENDER HINT
1	3	Draevos	10 Bya	Sky-dominant; Primordial Dragons; Mandrakes	Crimson-and-cobalt swirl, scaled texture, faint wing cloud-bands
2	7	Quorauna	9.4 Bya	Collapse megabeast (formerly Quoraxal — locked rename)	Ashen grey, fissures pulling inward — Pyrauna's mirror
3	11	Bellatora	8 Bya	Endless war (The Matriarch)	Blood-red, battle-scarred craters
4	15	Jynaera	6.7 Bya	Hyper-accelerated time	Bright magenta-purple with motion-blur swirls
5	19	Ultharis	5.8 Bya	Perception shapes reality	Iridescent shifting prismatic surface
6	23	Elythera	5.3 Bya	Floating continents	Teal sphere with detached landmasses hovering above
7	27	Viridia	5 Bya	Final planet · balance · Veil · Astral Core; true human race	Earth-like blue-green with a faint golden Veil shimmer — SAGA ANCHOR. Bold border + larger label.

Q IV · OMEGA ZONE			(+, –) · East spire · 7 planets		
RING	#	PLANET	AGE	DEFINING ATTRIBUTE	RENDER HINT
1	2	Lumeria	11.5 Bya	Pure light · awareness; Astrums	Bright white-gold pearl, soft halo
2	6	Pyrauna	9.5 Bya	Expansion megabeast (formerly Pyraxal — locked rename)	Molten orange, bright fissures expanding outward
3	10	Myraclese ★	8.5 Bya	Enforced devotion (Mykarlyth · Third Thamonian Lens)	Gold-leaf surface, chapel-light halo
4	14	Nexyros ★	7 Bya	Abandoned post-Transplacement (Egnellahc's ritual point)	Pale grey, hollow, faint spiral scar
5	18	Ignara	6 Bya	Failed balance; perpetual ignition	Burnt orange, entirely on fire, no stable terrain
6	22	Rhyzor	5.4 Bya	Sound is matter	Silver-blue with concentric sound-wave ripples
7	26	Ferralis	5.1 Bya	Industrial dominance (formerly Ferros — locked rename)	Rust-grey with circuit-like industrial scars

★ marks planets carrying additional canon weight in the hand reference — likely flagged for narrative anchor or Aetheonic guardianship; pending verification against the Aetheon roster.

The Aenoric Convergence Phenomenon

Every 7—11 years the planets align in a + **orbital spire** — i.e. one or more rings briefly line up across all four cardinal spires simultaneously, producing a cosmic crucifix of light from Aenor outward to ring 7. The phenomenon's cadence is non-periodic within the 7—11 year window and is treated as a celestial omen in Viridian cosmology.

Global Render Directives — for ChatGPT / image-gen

Background. Deep cosmic black with a faint spiral galaxy backdrop. Dark gold-trimmed atlas aesthetic, matching the reference image.

Aenor. Dead centre, large radiant sun with cross-shaped flare. Eye-icon inside the sun is canon. Label **AENOR** · "THE HIGHEST EYE" in serif gold caps.

Seven concentric spires. Thin gold-dotted circles numbered 1 (innermost) → 7 (outermost). Optionally label ring numbers on the right margin.

Four quadrant wedges. Faint translucent sectors from Aenor outward to the edge of ring 7. Q I Alpha gold/amber (NE) · Q II Dichotomy violet (NW) · Q III Trinity emerald (SW) · Q IV Omega crimson (SE). Label each wedge once at the outer arc.

Cardinal spire lines. Four faint gold lines from Aenor outward along N, E, S, W. The 28 planets sit on these spire lines (one per ring per quadrant axis).

27 planets. Place at their (ring, spire) coordinates. Each planet ≈ 5% of canvas diameter EXCEPT **Zyraxis (#9)** rendered ~1.4× larger with TWO visible rings at different inclinations (saga signature); **Viridia (#27)** rendered ~1.3× larger with a soft golden Veil-shimmer.

Labels. Serif-caps name + number (e.g. 9 · ZYRAXIS). Canonical spelling exactly as in the tables — do NOT shuffle or substitute. ★ markers preserved.

Ovauron / AE-28. Sits at its static Q II spire 7 slot AND traces a dashed elliptical drift orbit visibly crossing all four quadrants and at least three rings. Italic label 28 · OVAURON · DRIFT WORLD.

Side cartouches. Top-left: "Three Cosmological Metrics". Top-right: "Two Dominant Realms — Zyraxis · Viridia". Bottom-left: "Aenoric Convergence". Bottom-right: "28 Worlds · 27 Ordered + 1 Drift · 7 Spires · 4 Zones · 1 Star (Aenor)".

Banner. Bottom-centre, bold serif: **THE AETHRYX EXPANSE.**

Canonical Name List — Drop-In Prompt Block

Codex Spelling Notes — handwritten vs locked codex

HANDWRITTEN REFERENCE	LOCKED CODEX (v9.6)	REASON
Quoraxal	Quorauna	Locked rename in cosmic catalog
Pyraxal	Pyrauna	Locked rename in cosmic catalog
Ferralix	Ferralis	Locked rename from Ferros
Thallassar	Thallasar	Codex single-L spelling

Use the codex spellings in the final labeled image.
